

## The Japan Society of Tropical Medicine Research Encouragement Award

Year	Recipient	Affiliation	Awarded Paper
1991	Tatsuyuki Mimori	Kumamoto University	Studies on the Identification of Leishmania Parasites in Ecuador
1992	Hiroshi Ohmae	Nagoya University	Studies on Ultrasonographic Diagnosis and Clinical Indices of Liver Fibrosis in Schistosomiasis Japonica
1993	<i>No award recipient</i>		
1994	Shigeyuki Kano	Gunma University	Usefulness of Antibody Titer Distribution Curve in Malaria Epidemiology
1995	Meiji Arai	Okayama Kyoritsu Hospital	DNA Diagnosis of Malaria
1996	<i>The 14th International Congress for Tropical Medicine and Malaria was held; no regular annual meeting was conducted.</i>		
1997	Hiroyuki Matsuoka	Jichi Medical University	Induction of Malaria Transmission-Blocking Immunity by Recombinant Protein Produced by Baculovirus-Silkworm Expression System
1998	Katsumi Mizuta	National Sendai Hospital Virus Center	Epidemiology of influenza virus infections in children with acute respiratory infections in Zambia
1999	Tatsuya Katsumata	Nagasaki University	Cryptosporidiosis in Indonesia: a hospital-based study and a community-based survey
2000	Shigeto Yoshida	Jichi Medical University	A single-chain antibody fragment specific for the Plasmodium berghei ookinete protein Pbs21 confers transmission blockade in the mosquito midgut
2001	<i>No award recipient</i>		
2002	Jun Kobayashi	National Center for Global Health and Medicine, Bureau of International Cooperation	Malaria prevalence and a brief entomological survey in a village surrounded by rice fields in Khammouane province, Lao PDR
2003	Shin-ichiro Kawazu	National Center for Global Health and Medicine, Research Institute	
2004	Satoshi Mitarai	The Research Institute of Tuberculosis, JATA	Drug Susceptibilities and Clinical Manifestations of Mycobacterium tuberculosis in Zambia 2000.
2005	Mariko Saito	Institute of Tropical Medicine, Nagasaki University	Association of increased platelet-associated immunoglobulins with thrombocytopenia and the severity of disease in secondary dengue virus infections.
2006	<i>No award recipient</i>		
2007	<i>No award recipient</i>		
2008	<i>No award recipient</i>		
2009	Daichi Kato	Yamaguchi University	Establishment of a mass screening method of sand fly vectors for Leishmania infection by molecular biological methods.
2010	Moritoshi Iwagami	National Center for Global Health and Medicine, Research Institute	Genetic diversity and population structure of Plasmodium falciparum in the Philippines
2011	Yasutoshi Kido	Oita University, Faculty of Medicine	Purification and kinetic characterization of recombinant alternative oxidase from Trypanosoma brucei brucei
